Ms. Wright asked Dr. Soliven, Assistant Superintendent of Secondary Leading and Learning, to the podium for some clarification on item d) RFP 23-553-P-DR E-Tutoring - Secondary Leading & Learning - \$828,000.00 - Special Revenue - Federal. Ms. Wright proceeded to ask Dr. Soliven questions pertaining to student usage requirements, cancellation terms, historical tutoring use, other possible extracurricular/enrichment opportunities to use the funds on, and grant stipulations.

Ms. Wright expressed concern on spending this amount of funds for 35,000 students who may not utilize the service.

Ms. Campbell stated that academics is why we are here and explained the academic drop and challenges due to COVID. She strongly encouraged Ms. Wright to look at the website that extensively outlines all of the spending of ESSER funds. Ms. Campbell stated that this service is vital as principals cannot get their staff to stay after school for tutoring to get the numbers up. She explained that the opportunity for students to access individualized tutoring at any time of the day could have an effect that lasts.

Ms. Wright stated that she does not disagree with academics being the Board's priority, her concern is the funding for 35,000 users when 25,000 may not utilize this opportunity. She proceeded to ask Dr. Soliven additional questions, which were answered, to include when the program would be implemented/available to students if approved and if all students would utilize the service.

Mr. Susin asked Dr. Soliven to clarify what triggers the use of the program. He stated that he understands Ms. Wright's concern.

Dr. Soliven stated that she would feel comfortable with moving this item to the next Board Meeting so staff can consult with Procurement, who are the contract experts, in order to address all details for the Board.

Ms. Jenkins stated that she trusts Dr. Soliven's and the Procurement Team's professionalism to look into these questions. She stated that we will be monitoring the use and recruiting parents and students to utilize the program. Ms. Jenkins stated that this is critical and once parents find out about it, she feels we won't have a difficult time finding enough users, especially over summer.

Ms. Wright stated that since Dr. Soliven is comfortable with moving this item to the next Board Meeting to address and provide all details to the Board, she is in favor of doing that. She feels it is smart for the Board to look at the details because it may be a good opportunity to look at what we may be missing as a yes to this is a no to something else that can be extremely beneficial to our students. She hears what the Board is saying and doesn't want to not provide tutoring to students but wants to look at all of it as a whole and find out what happens if we don't use all the licenses or is there something different we can do in conjunction with this service.

Ms. Campbell asked if the Board isn't going to do this, how is tutoring going to be provided as what are currently doing, and will continue to do, is not filling all the gaps. She stated that staff have already looked at all the companies to provide this service and narrowed it down to this one, which was the best. Ms. Campbell is concerned that if we delay the approval, we may not have it in place before the end of the school year so we can really communicate with students and families. She stated that families are going to know in the coming days whether their student will need some assistance.

Motion

Pull item d) RFP 23-553-P-DR E-Tutoring - Secondary Leading & Learning - \$828,000.00 - Special Revenue - Federal and place on the next meeting agenda to allow time for staff to provide all details to the Board.

I. Information**I. Board****[44. School Board Member District Residence Area Redistricting](#)**

[📎 School Board Member -County Commissioner Districts 2022-2023.pdf](#)

[📎 RESOLUTION Re Board Member Residence Redistricting 5-2-23 \(002\).pdf](#)

Ms. Campbell stated that she has thought a lot about this plan and recognizes that this is not a decision about what is best for kids, so does not want to spend a lot of energy with continued controversy pertaining to the topic, but wanted finish out the night with her concerns. Ms. Campbell proceeded to address her concerns which included how the decision was made, things that were said, disregard of her initial concerns, gerrymandering lines to match with the County Commission, creating additional confusion, making a change for voters, and the false statement of her not running again. She urged the Board to be clear and transparent when going through these processes.

Ms. Jenkins stated that when the process isn't being done with full transparency and integrity, then we are impacting the little people. She stated that this is not a selfish decision for her as she has stated many times that she is not running again for District 3. Ms. Jenkins said the whole point of this is foolish with a disproportionate representation of schools. She asked where the Board's priorities are as we allow the County Commission to draw their map where they wanted to and we are relinquishing our own authority to them by simply accepting their map. She stated that she is not comfortable with relinquishing the Board's authority. Ms. Jenkins explained that she believes it should be as reflective as possible to have evenly based schools for easier representation and more of a relationship with schools.

Ms. Wright appreciated Ms. Campbell's statements and has thought of the redistricting in every way. She clarified that the Board is redistricting due to a requirement by federal law and asked Mr. Gibbs to explain the requirements. Ms. Wright stated that if we are not aligned with federal requirements, the district is exposed to liability. Ms. Wright explained that even if she wasn't in her district, she still feels it makes sense to line them up with the County Commission. She stated that the reason the Board is having this conversation and making this decision says that we are deciding and not just relinquishing our right. Ms. Wright understands that it is controversial for some of the members on the Board but it makes the most sense to her.

Mr. Trent explained that he has stated from the start that he didn't need a consultant group because we were out there knocking on doors and speaking to residents. He stated that if the County Commission has already done this, and paid for it, that it makes sense to line up with theirs. Mr. Trent explained that it is not political and is saving \$52,000 and is not personal in any way.

Mr. Susin stated that he brought this before the Board in 2021 and the original intent was to join the County Commission to make the decision together, but the Board decided it was too short of a window to do it. He explained that if you look at the districts how they currently are, there is gerrymandering significantly through certain areas. Mr. Susin stated that statute says Board Members are to represent all schools, so there shouldn't be concern of having more or less schools within our district. He shared that in general, this is a better format and gives us what we wanted with transparency.

Ms. Jenkins stated that Mr. Gibbs informed the Board that by moving two Board Members outside of their district it can open us up to potential lawsuits to challenge Board Members living outside of ones district, which could potential incur a cost to the district.
