Three individuals addressed the Board pertaining to this topic.

Ms. Jenkins stated that when this was initially brought to the Board's attention by a County Commissioner, they proposed to pay for the fee that would go to the Supervisor of Elections, or putting funds towards it, so it would cost the district less money. She explained that Mr. Susin advocated that it would be less expensive to go with the County Commissioner's because of that. She asked Mr. Gibbs, General Counsel, if the majority of the Board votes to approve this plan, will the way it is being paid for be brought before the Board as she wants it to be publicly stated. She explained that the funds would be coming from the Affordable Cares Act and she is not comfortable with using funds that should be going back to tax payers.

Ms. Campbell suggested that for the next year we leave the schools with the Board Member who is currently representing them until the new Board Members are elected in 2024 as this is where the current Board was elected for.

Ms. Wright explained to the public that the Board has to make this decision and it makes sense to make it the same as the County Commissioner's. She stated that she is support of Ms. Campbell's suggestion.

Mr. Susin stated that both Ms. Wright and Ms. Campbell made some great points. He explained that the district was out of compliance two years ago, when this should have been done, and is when he made the proposal to move to the County Commission. He stated that he initial proposed this before the new Board Members were elected and before any political upheavals. Mr. Susin explained that the reason behind him wanting to move to the County Commission was so the district could work with them on aligning our districts to save money and resources, along with resolve the confusion and transparency across the board. He explained that the conspiracy theories are not true.

Mr. Susin stated that by statute the Board is supposed to represent all schools and it is difficult when you try and draw geographical lines. He explained that this plan make it more fluid where Board Member represent both land and beach side. Mr. Susin stated that the plan was legally reviewed, saves \$50,000-\$100,000, saves staffs time, and per the Supervisor of Election it is easier to go down this plan rather than another redistricting.

Mr. Susin explained that there is no statutory law that the Board has to pay for this. He stated that Commissioner Tobia expressed that he has funds should the topic of payment to the Supervisor of Elections come up, but the Board does not need to accept it and Commissioner Tobia doesn't have to pay it. He explained that there is a reserve in the Supervisor of Elections budget that can be used.

[Cover Pages with po3500, ap3500, and foms for upload rev 5-4-23.pdf](#)

No individuals were present to address the Board pertaining to this topic.

Ms. Jenkins asked that the Board be flexible when it comes to this policy, not to pause it. She stated that staff have reached out to her about other positions to be considered for this remote work opportunity. Ms. Jenkins stated that she has not yet had conversation with staff and Cabinet Members for their consideration and is why she has not yet brought it before the Board. She stated, as an example, the position of Psychologist who does not have an office at the school and is traveling back and forth to a location that is the complete opposite of where they end their day and charging mileage to the district. Ms. Jenkins wanted staff to know that she heard them, hasn't forgotten about them, and will continue to ask questions and advocate on their behalf.

Ms. Campbell stated that the part Ms. Jenkins is referring to is in Administrative Procedures which is more flexible than the policy itself.

Mr. Susin stated that staff can work with their administrator to advocate for the opportunity.

One individual addressed the Board pertaining to this topic.

Ms. Hann clarified the areas that are included with this plan as there were public comments which identified areas already included. She explained that the plan covers areas 1, 2 and 3 as identified on the maps which includes the Suntree and Viera East areas.

Ms. Campbell explained that months ago she shared her concerns but will be voting for this item tonight as she trusts staff's recommendation and knows they will come up with a solution for things that may arise in the future. She stated that when the public talks about what was owed or promised, it continues to bother her. She explained that when you talk about the areas of stability versus the areas of instability and stable neighborhoods deserve a stable school, it isn't fair to compare Suntree to Palm Bay and cast a negative light on Palm Bay. Ms. Campbell stated that we need to recognize the difference in demographics. She explained that no one is going to dispute that stable families in a stable environment are going to produce students that perform better. Ms. Campbell stated that there are students in struggling families, in cities throughout the county, including Palm Bay, who are driving long distances to get to their schools for a long time. She explained that there is only one middle school in Palm Bay which is the largest city in the county. Ms. Campbell stated that it bothers her greatly when we start looking into taking care of oneself and one's community and as a Board we represent all schools. She explained that the community needs to be careful of how they speak about other areas as all kids deserve it.

Mr. Susin agreed with Ms. Campbell's sentiments. He stated that he is proud that the district is building one of the best middle schools they have ever had and explained the hard work that went into it by staff. Mr. Susin explained that we need to honor the fact that we are doing an amazing thing. He supports Ms. Campbell 100% that we need to hold individuals accountable for the things that are said, but the Board needs to take a minute to get excited because what is about to happen is special for our district and students. Mr. Susin thanked staff for their recommendation to include the other boundaries.

Ms. Jenkins stated that Brevard Public Schools has all of the best middle schools and we are proud of them and will continue to serve every student equally and make sure they have access to the best opportunities and education possible.

Mr. Susin explained that the County decided that they are going to move forward with allowing advertisements on their website but the rate they are charging is more than what we currently are paying for legal advertisements. He stated that it may be different for property appraisers, etc. but for us it is more expensive and he wanted to make sure the Board was aware.

[52. Board Member Reports/Discussion Points](#)

The Board addressed the two topics that were unable to be discussed during the earlier work session, which were:

Special Assignment Stipend

Mr. Susin said that this topic went in line with what Ms. Hann had shared during the Gardendale update and was comfortable with passing on discussing this topic as staff are already working on it. He opened the floor for Board discussion.

Ms. Wright wanted clarification that the Board is in favor of a stipend Ms. Hann stated that Dr. Green has already began working on it and it will be coming back before the Board shortly. The Board all gave their thumbs up for the stipend.

Activity Wheel Media Assistants

Mr. Susin stated that if you attend any of the elementary schools and other areas, there is a drastic need for media assistants. He explained that cutting the position was something the Board decided to do a while ago and since there has been an increase in activities for media specialists. He stated that he met with some of the Media Specialists and some were on the verge of leaving. Mr. Susin stated that he asked them to wait while he brings the topic of media assistants before the Board.

Mr. Susin stated he would like to ask staff to bring back the cost for having media assistants and make it part of the budget discussion as a possible item to fund. Discussion ensued pertaining to this topic. The Board was in support of including this within their budget discussion.

Ms. Jenkins requested that staff provide the breakdown of the difference, not just elementary.

Ms. Campbell wanted to make the Board aware, specifically the new members, that it was part of the staffing plan and not every elementary received a media assistant because you had to be a minimum size. She stated that when staff brings back their recommendation, they need to bring the whole thing because if you were under a certain size you didn't qualify. Ms. Campbell explained that if we put one in each elementary school, we are actually bringing back more than we had.

Ms. Wright would support having one in every elementary school.

Ms. Hann stated that Leading & Learning have been looking into this topic and have submitted proposals as part of their budget process and topic will definitely be addressed as part of the Board's budget discussion.

Upon the conclusion of addressing topics from the work session, the following topics were discussed:

Melbourne High Student Presenting to Board:

Ms. Wright sought Board approval to invite the student from Melbourne High to come and present before the Board at the next meeting. She explained that the student is part of Tobacco Free Florida and has taken the initiative to look into how we are going to help by educating our students. The Board was in support of this request. Ms. Jenkins stated that there were a couple of student who came before the Board regarding the same topic and asked if we can figure out who they are and connect them.

Anonymous Book Challenges:

Ms. Campbell stated that there was a list of almost 300 books to be challenged and it frustrated her as the individual didn't vet their own list. She stated that part of why this could happen is we allow them to submit challenges anonymously. Ms. Campbell explained that it is an unintended consequence and stated that the original intent of making it anonymous was to secure the individuals address. Ms. Campbell asked if there was any movement for the Board to consider redoing the policy to take away the anonymous option and further explained why she feels it is needed.

Discussion ensued among the Board pertaining to the topic.

L. Superintendent's Report

53. Superintendent's Report

Ms. Hann expressed her appreciation to the Board for the opportunity to serve as Acting Superintendent. She stated that she has learned a lot about the district which will make her better in her facilities role to serve our students. Ms. Hann also thanked Cabinet Members for their support. INSTITUTION: ARTICLE IX - SECTION 1. Public education:

The education of children is a fundamental value of the people of the State of Florida. It is, therefore, a paramount duty of the state to make adequate provision for the education of all children residing within its borders. Adequate provision shall be made by law for a uniform, efficient, safe, secure, and high quality system of free public schools that allows students to obtain a high quality education and for the establishment, maintenance, and operation of institutions of higher learning and other public education programs that the needs of the people may require.

ADDRESSING THE BOARD:

Individuals or groups may address comments to the School Board at any regular meeting by following established procedures set forth in Board Policy 0169.1. All attendees must register his or her intention to speak in the public portion of the meeting upon arrival by completing a speaker's form. The signup period for all public comments, both agenda and non-agenda, will close at the start of the Board meeting.
