5830 - STUDENT FUND-RAISING

Property taxes and state funding support the regular school district educational program. There are important activities, however, which are school-related but which do not receive funding through the school district budget. Examples of these activities are club activities, academic competitions, classroom enrichment, proms, and special graduation programs. The Board recognizes the need for some constraint to prevent fundraising activities from becoming too numerous and overly demanding on employees, students, and the general public.

The Board acknowledges that the solicitation of funds from students by students must be limited since compulsory attendance laws make the student a captive donor and since such solicitation may disrupt the program of the schools. The Board further acknowledges that school time and energy should be singly devoted to curricular pursuits and students should not spend academic class time preparing for fundraising activities. Participation in or donation to any fundraising activity shall be optional and under no circumstances will any student be compelled to participate or donate or be penalized for not participating or donating.

For purposes of this policy "student fund-raising" shall include student solicitation and collection of money for any purpose including collection of money in exchange for tickets, papers, or any other goods or services.

The Board will permit student fund-raising in school, on school property, or at any school-sponsored event only when the profit therefrom is to be used for school purposes or for an activity connected with the schools. Fundraising must be conducted in a manner that will maintain the integrity of individual students, employees and the District.

Student fund-raising by approved school organizations may be permitted in school by the principal. Student fund-raising by approved school organizations off school grounds may be permitted under the administrative procedures of the Superintendent.

Fund raising by students on behalf of school-related organizations may be permitted on school grounds in accordance with the Superintendent's administrative procedures.

These administrative procedures should:

- A. specify the times and places in which funds may be collected;
- B. describe permitted methods of solicitation which do not place undue pressure on students;
- C. limit the kind and amount of advertising for solicitation.

The principal shall distribute this policy and the procedures which implement it to each student organization granted permission to solicit funds.

The Board recognizes that schools can be an important resource for the community in supporting other community organizations or purposes in their fundraising efforts. It also recognizes that schools have a limited capacity to support fundraising efforts and that unrestricted fundraising using Brevard Public Schools cannot be permitted.

Fundraising done as a service project initiated by a recognized school organization on behalf of community organizations may be permitted on school grounds in accordance with the Superintendent's administrative procedures. Indirect forms of charitable solicitations on school premises that are passive

such as placing a bin or collection box in a common area to receive donations of food or other items are permitted upon approval of the principal.

These administrative procedures should:

- A. specify the name of the community organization benefitting from the school's fundraising efforts;
- B. specify the times and places in which funds may be collected;
- C. describe permitted methods of solicitation which do not place undue pressure on students;
- D. specify the group of students, club or student organization which will be responsible for the fundraising efforts.
