**PRICE INCREASE / DECREASE EXPLANATION:** New costs are based on current pricing and partial year of Student Information System Support ending on December 31, 2022.

**DISCUSSION:**

Harris School Solutions will continue to provide maintenance and support services for the current Student Information Systems (SIS) and Business systems to include; Finance, Payroll, and eContract software. This agreement includes major programming updates and bug fixes of the legacy software systems needed to support state reporting requirements. Standard support via either telephone or the current support ticket submission process including general technical information and assistance with problem determination, isolation, verification, and resolution are also included to ensure that BPS core systems function at a high level when supporting the needs of the district. This support remains critical as Educational Technology works to implement FOCUS student system modules and particularly important for state reports that look back at prior school-year data maintained in the Harris School Solutions SIS.

This renewal will renew the terms of a vendor-provided agreement amendment which was approved by Legal Services on August 23, 2021.

**CONTRACT TERM:**

The renewal term shall commence July 1, 2022 and continue until June 30, 2023 with annual renewals available thereafter.

**RECOMMENDATION:**

It is the recommendation of Russell Cheatham, Chief Information Officer/Assistant Superintendent, and Edward Sherretta, Director of Management Information Systems to approve the renewal with Harris School Solutions.

**AUTHORITY FOR ACTION:**

Florida Administrative Code 6A-1.012 (11) (b)
