It would be devastating to her to move schools her Senior year! As you know change is not good for our children. I'm also concerned about having to pull her out of the BLAST program after she graduates because I want her to continue to go to Viera for BLAST with her friends that she has made. She knows the school grounds and the people around her, which makes her more comfortable. If she cannot go to Viera BLAST, I will probably pull her from the program. I really don't want to do that.
