**Article III.
Staff and Compensation**

Section A: Staff

Numerous studies reinforce the belief that a high school diploma in conjunction with a sound base of literacy and academic skills are of high importance to the post-secondary success of youth in foster care. Challenges such as attendance issues, behavior problems and special education needs that go unidentified contribute to the academic performance level of youth in foster care being far below that of their peers.

For most youth, schools work in partnership with families and provide supportive environments that encourage both academic and emotional growth and development. However, for foster care youth, this support instruction is often times missing. This absence of this partnership can result in youth facing multiple hurdles when they enter the classroom. The position of *School Counselor on Special Assignment* will work with youth placed in Brevard County’s Foster Care System to address the individual educational needs of the youth.

The position of School Counselor on Special Assignment will be employed by the School District with the understanding that BFP staff and partners will be part of the interviewing process to ensure the person selected for this grant funded position is an individual who has an understanding of the complex system barriers that may impact the academic attendance and performance of youth in Brevard’s foster care system.
