- Reason for trip and educational benefits:

  I want to attend the 2020 SEMA Show Student Program in Las Vegas to provide a unique learning experience for my students. The goal for the week will be to participate in the SEMA Launch Pad & Student Career Day to highlight career opportunities in the automotive aftermarket industry, network with fellow school officials, and facilitate networking opportunities for students with industry representatives. The Student Program Career Day will give our students valuable face to face networking time to learn about the vast diversity of companies in the industry and the skills required to work with those companies. I will also be able to network with other school officials to learn what opportunities and challenges they face at their school. The SEMA Show Student Program is designed to help prepare our students to become successful professionals in the automotive aftermarket industry. Along with the activities listed above, myself and my students will have the opportunity to attend Education sessions and access the SEMA Show exhibit halls that house over 2,000 exhibiting companies that represent all segments of the automotive aftermarket industry.
