DISCUSSION:

This tow truck is being purchased with Capital Outlay money. Transportation requested funding last year but did not request enough money due to prices going up. This will allow Transportation to transport everything in district fleet when broken down.

Procurement issued an ITB on April 12, 2023 with bids due on April 27, 2023 no responses were received. The requirements for requesting competitive solicitations and making purchases for commodities and contractual services as set forth in this section are hereby waived as authorized by Section 1010.04(4)(a), F.S., when the following conditions have been met by the district school board. Competitive solicitations have been requested in the manner prescribed by this rule; and the district school board has made a finding that no valid or acceptable firm proposal has been received within the prescribed time. When such a finding has been officially made, the district school board may enter into negotiations with suppliers of such commodities and contractual services and shall have the authority to execute contracts with such vendors under whatever terms and conditions as the district school board determines to be in its best interests.

The standard bid waiver agenda template has been used, which does not require legal review.

CONTRACT TERM:

This is a one-time purchase.

RECOMMENDATION:

It is the recommendation of Rachad T. Wilson, Chief Operating Officer, District Operations and Dr. Michael Miller, Director of Transportations Services to approve the purchase with Crouch’s Wrecker & Equipment in the amount of \$415,000.00.
