School grades are part of Florida's accountability system that provide an easily understandable metric to measure the performance of a school. Parents and the general public can use the school grade and its associated components to understand how well each school is serving its students. A school's grade may include up to eleven components. There are four achievement components, four learning gains components, a middle school acceleration component, as well as components for graduation rate and college and career acceleration. Pineapple Cove Classical Academy-West Melbourne was one in seven Charter Schools that chose to "opt-in"; however, the rest of Brevard Public Schools did not "opt-in" for school grades.
